Non-3DS

NON-3DS is an invaluable resource for businesses looking to streamline their payment processes and maximize efficiency. By leveraging the NON-3DS functionality offered by iyzico, businesses can easily initiate and manage payment transactions with ease.

IMPORTANT NOTE : To use NON-3DS, you must have this feature in your iyzico account. To enable this feature, you can create this request by sending an e-mail to entegrasyon@iyzico.com.

Incorporating NON-3DS into your software solution allows you to provide a seamless and user-friendly payment experience for your customers. With the abilities of NON-3DS, merchants can focus on growing their business while leaving the complexities of payment processing to a trusted and reliable platform.

Advantages

Faster integration

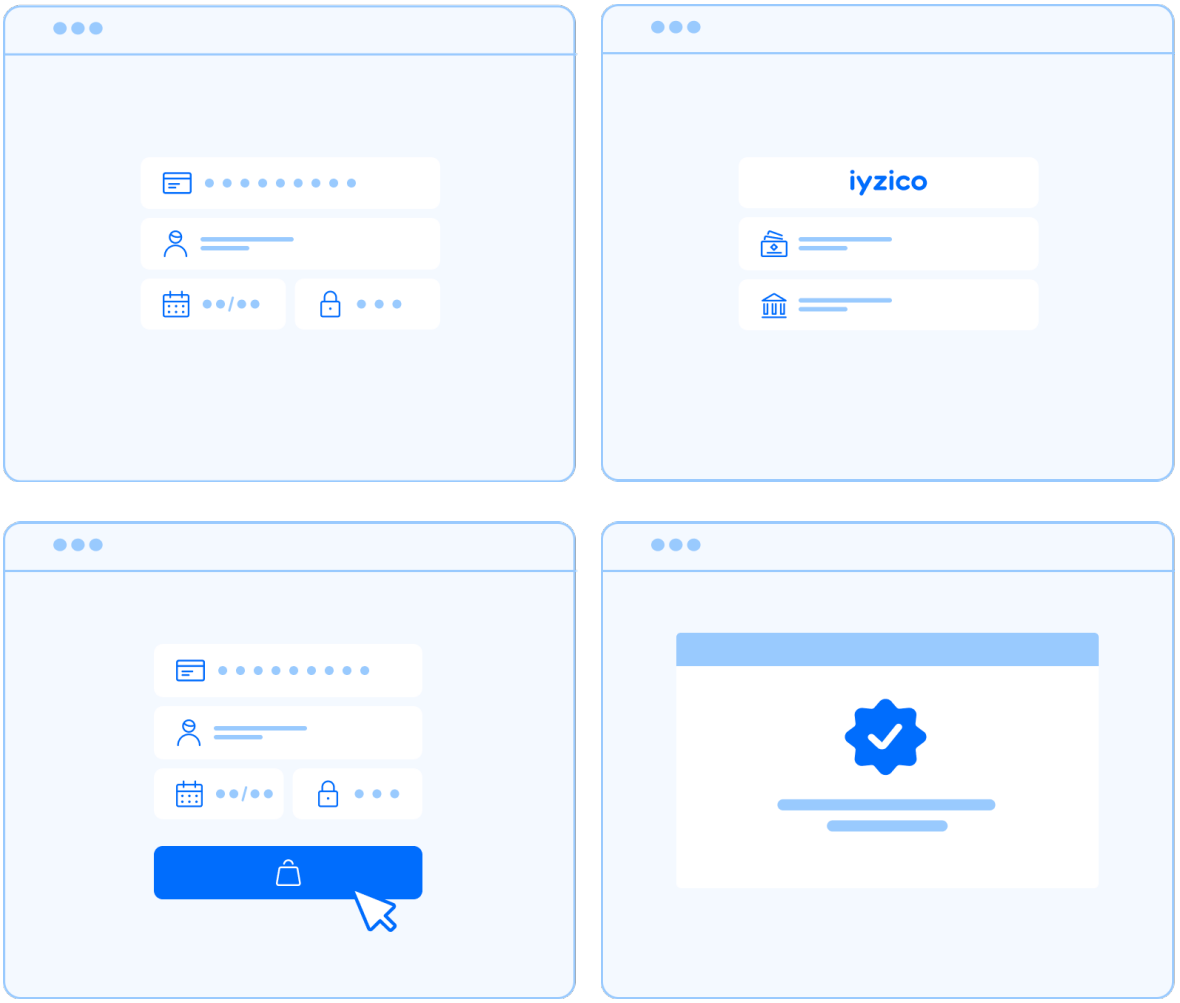

Simplest form of managing payments

Easy to plug & play among other iyzico APIs

Non-3DS Payment Flow

The Non-3DS payment process consists of selecting a credit card, entering the card information, and then finalizing the transaction.
