Online Payment

Marketplace product offer multiple online payment methods. Followings are 4 different payment methods;

Payment Method Decision

Non-3DS	3DS
Checkout Form (CF)	PayWithiyzico (PWI)

If you also wish to sell as a submerchant or a marketplace owner, there are two methods available:

1. Either create a submerchant under your account and assign yourself to this submerchant as well as your products.
2. If you prefer to sell without creating a submerchant, you can use the `paymentGroup` parameter with the value `LISTING`. (Please note that when using this approach, the subMerchantKey parameter cannot be utilized.)

After choosing one of the four payment types, you will need to include two additional parameters: **subMerchantKey** and **subMerchantPrice**. It is essential to assign these parameters to each product in the payment request.

Input Name	Type	Require	Description
subMerchantKey	string	yes	Returned value from submerchant create request
subMerchantPrice	string	yes	Amount that needs to be transferred for sub merchant
